

CLERK: 28 ayes, 0 nays, Mr. President, on the adoption of the Committee amendments.

PRESIDENT: They are adopted. Senator Maresh.

SENATOR MARESH: This bill was heard by the Business and Labor Committee and there was no opposition to the bill, a lot of support from the working people. They feel that this is needed protection for Workmen's Compensation to also cover plastic and reconstructive surgery, when there is an injury causing disfigurement. This does not include cosmetic surgery but it will compensate for a loss in hearing aid, dental appliance, or eyeglasses and I think this is a much needed bill to give protection to people that do have these problems. It's bad enough that they have certain...have to wear these appliances so we should protect them when this is caused by industrial accidents so I move that this bill be adopted to E & R Initial.

PRESIDENT: Any discussion? The question is the advancement of the bill. Record your vote. Have you voted? Record.

CLERK: 26 ayes, 0 nays, Mr. President.

PRESIDENT: The bill is advanced. We go to LB 519.

CLERK: Mr. President, (Read title to LB 519). The bill was referred to the Appropriations Committee, Mr. President. It was advanced to General File with Committee amendments.

PRESIDENT: Senator Kahle.

SENATOR KAHLE: Mr. President, those Committee amendments have been adopted.

PRESIDENT: Have they been, Pat? Have the Committee amendments been adopted? No, they have not been.

SENATOR KAHLE: Mr. President, the Committee amendments I believe, were brought to the Committee's attention by Senator Fowler so I think he would probably be able to give you a little better idea of what the Committee amendments are.

PRESIDENT: Senator Fowler.

SENATOR FOWLER: I would move adoption of the Committee amendments. The bill Senator Kahle has is to amend a language and bills that I introduced in the Legislature a couple years previous. It grew out of the emergence of the Revenue Sharing Program at the federal level and was simply legislation designed to empower cities to spend revenue sharing in those category areas designated by the federal government. Senator Kahle brought his amendments in to the statutes that I had adopted and it eliminated some specific language that the Lincoln City Attorney felt was necessary for the city to spend revenue sharing in certain Social Service areas and that language had been in the statutes. So what Senator Kahle might have been doing although his bill was necessary to adjust to the change in the Revenue Sharing Act, may have created
